Gentlemen:

Responsive to your letter dated July 29, 2004 we prepared and filed a response to the Office Action. Copies are enclosed.

We amended the claims to better comply with the requirements of 35 USC 112, based on your proposed amended claims.

In addition, we amended the specification to correct some minor informalities of which we became aware.

Please carefully review the Amendment to ensure that it is complete and accurate, and that the claims are of the desired scope. If any changes need be made, please advise us immediately so that we can take the appropriate steps.

The application should now be in condition for allowance, and we look forward to reporting a Notice of Allowance in due course.

Re: **Duty of Disclosure**: If applicant is aware of any additional material prior art, including prior art from prosecution in other countries, such art must be filed in the U.S. Patent and Trademark Office as soon as possible, along with a concise explanation of relevancy of foreign language references. Please send (1) copies of all references cited (and identification of equivalent U.S. Patents if available) and (2) a brief explanation of the relevance of foreign language references. Failure to comply with the duty of disclosure might result in invalidity of the resulting patent.
